South African Journal of Oncology

ISSN: 2518-8704 (print) | ISSN: 2523-0646 (online)

Vol 6 (2022)

Original Research

1

The relationship between bone marrow involvement on ¹⁸F-FDG PET/CT and bone marrow biopsy in patients with multiple myeloma and other plasma cell neoplasms

Kiflom S. Gebreslassie, Fatima C. Bassa, Zivanai C. Chapanduka, James M. Warwick

South African Journal of Oncology | Vol 6 | a197 | 10 January 2022

Original Research

8

The prevalence of sarcopenia amongst non-small cell lung cancer patients, assessed using computed tomography, prior to treatment in a South African setting

Luke D. Metelo-Liquito, Cleo Solomon, Deepa Bhana-Nathoo

South African Journal of Oncology | Vol 6 | a218 | 31 May 2022

Original Research

15

T-cell lymphoblastic leukaemia: The Johannesburg state-sector experience

Jenifer Vaughan, Tracey Wiggill, Pascale Willem, Katherine Hodgkinson

South African Journal of Oncology | Vol 6 | a229 | 22 June 2022

Original Research

22

The paediatric oncologist and the evolving medical management of complex vascular anomalies: An institutional experience

Matthew Mercouris, Alan Davidson, Gisela Kahl, Helder de Quintal, Marc Hendricks

South African Journal of Oncology | Vol 6 | a227 | 29 June 2022

Original Research

30

Estimating the burden of cancer in South Africa

Emma Finestone, Jodi Wishnia

South African Journal of Oncology | Vol 6 | a220 | 11 August 2022

Original Research

37

Factors associated with bone marrow involvement in lymphoma staging bone marrow examination: A South African single-centre retrospective study

Robert K. Lohlun, Zivanai C. Chapanduka

South African Journal of Oncology | Vol 6 | a211 | 23 August 2022

Original Research

45

The University of Cape Town's paediatric cancer database: Results from the first years (2019–2021)

Alan Davidson, Jennifer Moodley, Komala Pillay, Marc Hendricks, Annemie Stewart, Jeannette Parkes

South African Journal of Oncology | Vol 6 | a234 | 24 August 2022

Original Research

54

Testicular germ cell cancer in Africa: A survey on patterns of practice

Henriette Burger, Tara Rick, Pieter Spies, Ayun Cassel, Verna Vanderpuye, Luca Incrocci

South African Journal of Oncology | Vol 6 | a241 | 15 September 2022

Original Research

62

The necessity of bilateral staging bone marrow examinations for paediatric solid tumours

Anne-Cecilia van Marle, Ilse Coetzee, Wynand Britz, Jade Eichbauer, Marguerite Smith, Marli van Gend, Helen van der Westhuizen, Riëlle Vorster, Leriska Haupt

South African Journal of Oncology | Vol 6 | a242 | 27 September 2022

Original Research

68

Multilevel interventions to address sexual health challenges in men with prostate cancer

Nape M. Phahlamohlaka, Sibusiso Mdletshe

South African Journal of Oncology | Vol 6 | a243 | 08 November 2022

Original Research

74

Transition from 3D conformal to modern modulated craniospinal radiotherapy

Hamida Fakira, Thurandrie Naiker, Brendon Smith, Annemari Groenewald

South African Journal of Oncology | Vol 6 | a248 | 18 November 2022

Original Research

83

Anti-myelocytomatosis tag antibody detects myelocytomatosis oncogene expression in Burkitt lymphoma

Nokuphila B. Shezi, Nozuko Ntshwanti, Pumza S. Magangane

South African Journal of Oncology | Vol 6 | a239 | 05 December 2022

Original Research

88

Radiotherapy teaching during COVID-19: An emergency teaching response

Hester Burger, Nanette Joubert, Bridget Wyrley-Birch, Natalia Vowles, Antonella Fogliata, Theresa Binz, Jeannette D. Parkes

South African Journal of Oncology | Vol 6 | a251 | 08 December 2022

Original Research

97

Neuroblastoma survival in South African children is more influenced by biological than socioeconomic factors

Robyn Charlton, Thandeka Ngcana, Jennifer Geel

South African Journal of Oncology | Vol 6 | a244 | 12 December 2022

Review Article

106

Oesophageal cancer in South Africa: A scoping review

Lucien Ferndale, Colleen Aldous

South African Journal of Oncology | Vol 6 | a217 | 24 March 2022

Scientific Letter

115

The management of head and neck cancer in Africa. What lessons can be learned from African literature?

Kim A. Coutts, Jaishika Seedat, Ellen Vlok

South African Journal of Oncology | Vol 6 | a204 | 01 February 2022

Case Study

118

Low-dose localised electron radiotherapy in a case of refractory mycosis fungoides

George O. Joram, Henriette Burger, Willem I. Visser, Zainab Mohamed

South African Journal of Oncology | Vol 6 | a237 | 28 July 2022

Reviewer Acknowledgement

123

South African Journal of Oncology | Vol 6 | a254 | 20 December 2022
